

Permanent Way Trackman – Plant Operatives

We are seeking two suitably qualified and enthusiastic individuals to join our Permanent Way Track team within the Infrastructure Engineering Department of a premier heritage steam railway. Reporting to the Track Chargeman, you will assist with track patrols, maintenance and repairs, operating plant and Road-Rail vehicles.

You should have experience of operating a variety of plant and possess good communication skills to work within a team. This is an exciting opportunity to contribute to the maintenance and preservation of our Railway. Training will be provided for maintaining competency required for the role, with opportunity to learn new skills.

There are two full-time (40 hours per week) permanent post available for (Grade 3) Plant Operative - £18,000 to £22,800 pa - depending on experience. We also offer benefits including a non-contributory pension scheme.

For further details contact hr@wsrail.net or call 01643 700390 for an application form and information pack. If you would like to informally discuss the role, please contact Andrew Young, Head of Infrastructure Engineering on 07872 839109, during normal office hours. Completed applications should be returned under confidential cover to HR Department, WSR, The Railway Station, Minehead, Somerset TA24 5BG, by not later than Thursday 22 February 2018.

Interviews will be held Wednesday 28 February 2018.
